Roll-Top Bag Use and Care

Use and Care

1. Stuff your roll-top bag with gear and flatten the top edge, with the buckles at either end of the fold.
2. Fold the bag down the width of the webbing, two or more folds.
3. Buckle the buckles together.
4. Strap your roll-top bag into your cage of choice. Make sure to secure any loose straps!

Your teknikul roll-top bag is pretty tough, but you do need to treat it right. Here are some do's and don'ts:

- DON'T put anything sharp in your roll-top bag without taking steps to prevent punctures from the inside of your bag.
- DON'T wash your roll-top bag in the washing machine. That could damage the X-PAC laminated fabric. DO wipe your roll-top bag clean with a sponge or soft rag soaked in warm soapy water. Or just leave the dirt on it so you look tough.
- DO ride with your roll-top bag on your bike every day! Or every day you can, at least.

If you have any other questions, comments or issues please let us know!

Enjoy your gear! And feel free to give a call with any questions or issues.
